**Students who are ready to enter the Sheltered or mainstream English classes will be determined by the annual CELDT and local assessments based on the ELD standards. In all cases, they must be provided with ELD instruction to meet the specific ELD need of the student. This may be delivered in a grade level Language Arts class, or a special class providing advanced ELD. Determination of whether a student is placed in a Sheltered or Mainstream content class should be based on careful, individual diagnosis of language and academic performance to date.
